THE INCOME TAX.

The disagreeing votes of the two houses on the phrascology of the resolution regarding the continuance of the income tax for the present year was to-day referred to a committee of conference. It does not look now as though the question of cominining the tax beyond the present year would arise from the differences on the pending bill, but will be deferred till the new internal tax bill fareported. The statement of the chairman of the committee, on Saturday, that it takes all the revenue derived from the income tax to pay the annual pension roll, has weakced the determination of some members to vote for the total repeal of the tax.

THE PIPTERSTR AMESDMENT.
A bill to enforce the Pifteenth amend A bill to enforce the Fifteenth amendment, by virtue of the anthority conferred on Congress by the second section thereof, was reported to the Senate to-day by the Judiciary Committee. It is similar in its propositions to the bill for the same purpose which the House committee has decided to report, and heretofore published in these dispatches; but, unlike the House will, it seems to assume, on its face, that such legislation is actually necessary before universal suffrage can be enforced in States where it is prohibited by local laws. Fine and imprisonment are provided for all persons who hinder ar delay any clitzen from voting, and provision is made for the recovery of any office of which any one has been de-

voting, and provision is made for the recovery of any office of which any one has been deprived by throwing out eclored votes. A further provision is made for the President to enforce the kay, if needed, with military force.

LOYAL SOUTHERN CLAIMANTS.

Two attempts were made to-day by Southern members to secure the passage of a joint resolution committing the House to the policy of paying loyal Southern claimants for property taken and damages sustained during the war, but in each instance they were voted down by a decisive majority. The election passed off quietly. No dis-turbance of any kind. There were about 800 votes polled, including 900 negroes. The Redical negroes and whites polled their strength more fully than the Democrats. Lewis' majority in this district is two hundred, and in the county his majority is esti-mated at seven hundred. No effort was made to influence the negro voic for the Demo-BOWLING GREEN.

sadder at the trial to-day than on any previous day, and he and his little boy, Percy, nessited closely together. Judge Davis, the Assistant District Attorney, was not in his seal,
he having been called to Washington to attend to his duties as a member of Congress.
The testimony of Dr. Vance was instende to
with the deepest interest. This was the first
witness produced by the defense as an expert.
He had made a careful study of the mental
condition of the purisoner. One of the questions propounded by Mr. Gerry was as follows: "When thought is healthy, is it not
the necessary result of a healthy brain."
Dr. Vance answered "Yes." This question
was followed by a series of interrogations relative to the normal structure and the abnormal condition of the brin—the substance of
the defense, namely, that McFarland was not
only insane at the moment he shot Richardson but that he is still afflicted with disease

Fredler opposed the measure, decouncing it as redolent of loobery.
Level Eleho held the same views.
Mr. Stam-field defended the bill in detail One of its principal merits, he said, was to establish control over expenditure.
Sir J. Prackington generally approved the bill, and conflued his objections to certain ordnance details.
Mr. Cardwell, Secretary of War, closed the debate with a speech in refutation of objections to ferred.
The bill then passed by a majority of 74.
The metropolitan poor relief bill, after as he said he had previously observed to some dignitaries of the Church, that the use of a little American steam would expedite matters a good deal. Several other pleasant subjects were discussed, but their personal and private nature reader them less interesting to the Father Medianus, whose condition was so citical for some days as to excite the unsastness of his friends, is now, I am happy to say, almost fully restored to health. A recent English paper notices the fact that before 1782 tobsoco was grown to a considerable extent in England in the vale of York and in Rydale; but those who thus used their land were prosecuted by Government and ruined by a fine of thirty thousand pounds. Subsequent to this tobsoco was grown in Kelso and Jedburgh, Scotland. Each acre produced four hundred and eighty pounds, and the growing it would have been profitable, but the growers were forced to sell to Government at one-third the market rates. When, in 1828, tobacco-growing was prohibited in England, there were only one hundred and thirty acres of land in Ireland devoted to this crop; but the next year in Wexiord alone a thousand acres were put in tobacco and produced twelve hundred pounds to the acre—the cost of cultivation being eighteen pommas sterling by horse culture and thirty pounds sterling by horse culture and thirty pounds sterling by horse culture and thirty pounds sterling per acre by hand. HALL'S SAFE AND LOCK COMPANY: GENTLEMEN-On the 9th inst., the lare wo story frame building situated on West Twelfth street, and occupied by me as a planing mill, was entirely destroyed by of a large amount of lumber, sash, doors, &c. The No. 7 Safe I purchased of you last May (one of Hall's patent) fell from the second story, and was completely covered with burning timber, which fell on top and around it.

No water was thrown on the safe, and itemained at a white heat for hours, and. then taken out, was so hot it could not e opened for six hours longer. I am appy to say it preserved its contents ompletely, and all who were present completely, and all who were present when it was, opened were astonished at the perfect condition of the books and papers, which were not even soiled. The Opera House.

"Under the Gaslight" was given again last night, the performance going off smoothly. To-night it will be given for the last time, as on Wednesday night the famous French play, entitled "Frou Frou," which had such a run in Paris and New York, will be produced. The manager proposes to put it upon the stage with a careful attention to all the details of scenery, costume and mechanical effects. Frou Frou is intended as a picture of a certain phase of French life, and is regarded as one of the most powerful of all the modern French plays. It would hardly be fair to give the plot or lecidents until it has been given, when we shall have something to say of its merity and morals. The Opera House.

configgration, by which one hundred and
forty-seven thousand dollars of city securities
were reduced to arbest. The deed was premeditated, and was most effectually accomplished. Even the fakes of the burst bonds
were broken into fragments, not even the semblance of what a few moments before was
worth thousands of dollars being left.

The securities consisted of 140 "old liability" bonds, six bounty bonds, and one Louisville and Nashville bond, 147 in all, of \$1,000
each. The parties who so rathlessly committed them to the flames were Mayor Jan. G.
Baxter, Jan. W. Barr, and W. F. Rubel, Commissioners of the Sinking Fund. Mayor Baxter inaugurated the destruction by lighting a
